LEADING IDEAS
FOR BETTER LIVES

Scottish Enterprise

There were slightly higher postgraduate qualification levels amongst business owners in rural areas and towns

Educational Attainment

Current Operating Environment

Regardless of location about 1/4 reported their 2017 operating environment as very good

Businesses in towns were more likely to have turnovers over £0.5 million. 1-in-3 rural and town based businesses had turnovers under £100,000

Business Turnover

Business Age

14% of businesses from towns were less than 5 years old. Rural businesses tended to be older than in towns

20% of businesses in rural areas & towns were uncertain of their future, but over 35% expected their business to improve. Retirement expectations were highest in towns (14%) & rural areas (11%)

5 Year Outlook

5 Year Investment Plans

58% of rural businesses expected to invest in their business in the next 5 years - with highest expectations of investing in capital items....but they were least likely to invest in staff

Turnover Change 2016-17

Rural businesses were most likely to have had no change in their turnover between 2016-17, with a third having improvement and a fifth having worsening turnover. 41% of urban businesses reported improved turnover.

In rural areas a third of business owners / partners / directors were over 60 years old with over two-thirds in the over 50 year old bracket. In rural areas, the 11% under 40 years old compares poorly to 21% in urban areas.

Age of Owners / Partners / Directors

Links to Land-based Sector

Unsurprisingly rural businesses surveyed were much more reliant on the land-based sector than businesses in towns and urban areas. In rural areas half the businesses relied on land-based businesses to some extent - perhaps surprisingly a third of businesses in towns and urban areas also did.

Links to Farming

Links to Forestry

Links to Estates

About 17% of rural and town based businesses with links to farming were downstream purchasers of goods and services. Upstream suppliers of goods and services were the most common form of linkage.

A quarter of rural businesses that are linked to farming rely on the sector for over 25% of turnover. In towns half those linked to farming generate less than 10% of turnover from it.

Turnover from Farming

BREXIT Challenges & Opportunities

Over 60% of all businesses that import felt that post-Brexit it would become more challenging. 45% of the rural businesses that export thought there would be greater export opportunities. Few businesses, regardless of location, felt that access to private and public finance would improve.

Business Regulations

Rural businesses were more likely to think post-Brexit access to labour would be challenging, although 30-35% of rural businesses thought there will be some improved opportunities to access labour. 38% of rural & town businesses thought there was some scope to cut red tape.
